Respected Dr. Thakkar

For a long time I have not been able to come to Bombay & see you. Everything here is fine & we are progressing well.

I hope you remember operating Mr. Madan Gopal Agrawal (age 70 years) for T.K.R. in both knees in the year 2000 in our hospital. That was the first operation of T.K.R. It is creditable that he has travelled thereafter at various places in India during last 12 years. He went to south India Kanyakumari, Andaman Nicobar, Darjeeling, Badrinath, Kedarnath, Gomukh & also Mansarovar. He also went on some tracking places. When he went to America he enjoyed all the adventures sports activities.

He just died 3 days before at the age of 82 years. This is just for your information.

With Kind regards,

Your Sincerely

(Dr. Gokuldas)

To,

Dr. C.J. Thakkar
